
7" COLOUR VIDEOPHONE

KRV7 KRISTALLO SERIES

Kristallo®

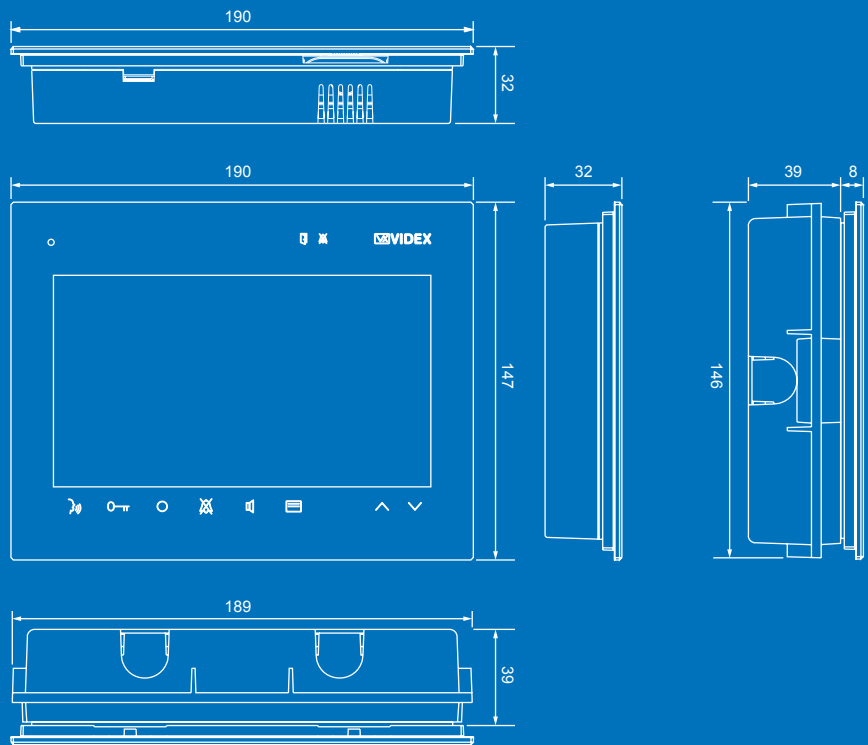

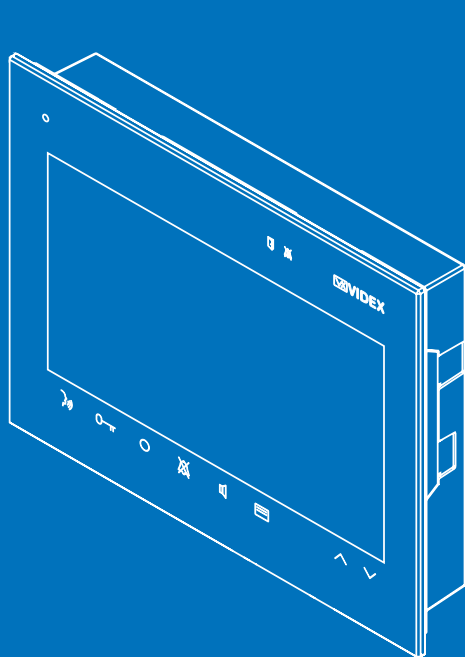

Available in a white or black finish in both surface and flush mounting options.

The 7" TFT LCD colour video monitor complements the existing range of Kristallo videophones and audio apartment stations. Providing a larger screen and features such as touch sensitive controls, hands-free speech with simplex function, entrance recall, door release, a timed do not disturb function and the ability to intercommunicate between multiple devices.

Available for the VX2200 6 wire system and VX2300 2 wire system enabling these monitors to be used in single apartment installations through to high-rise installations with up to 1000 apartments.

 **VIDEK®**

The 7" video monitor with an 800x480 pixel resolution full colour active matrix LCD screen is designed primarily for low and high-rise private developments and individual houses where an attractive functional video monitor is desirable.

Accessories include flush boxes for both solid wall and dry line wall installation.

Features include:

- Handsfree duplex speech to entrances and other Kristallo line intercom units.
- Timed 'Do Not Disturb' function with call reject feature.
- Door open and Privacy LED's.
- Programmable number of rings, auxiliary output time, privacy time and call melody.
- Door release button, auxiliary output and local door bell facility.
- Door recall to activate the camera and speech without first being called.
